1. Introduction

Terrapin Events is a Campus Event Management System designed to streamline the process of creating, managing, and participating in university events. This manual guides Participants, Organizers, and Administrators through system usage.

1.1 Purpose of the System

The system centralizes event discovery, registration, management, and feedback.

1.2 Intended Users

- Event Organizers
- Participants
- System Administrators

1.3 System Overview

Users can browse events, register, create events, approve events, manage attendees, and submit feedback.

- Create and manage events
- Registration and attendee management
- Admin approval
- Feedback
- Login & authentication

2. System Requirements

Our repository uses **Docker Compose**

2.1 Technical Requirements

- Docker Desktop installed
- Browser: Chrome, Firefox, Edge
- Internet connection

2.2 Optional (For direct development use)

- Node.js 18+
- Python 3.11
- MongoDB Compass

3. Getting Started

3.1 How to use the System (Via Internet)

- Deployed on the web at here https://logicinloop.com
- GitHub Repo can be found here enpm613-team4-terrapin-events

- GitHub Actions included on main via CI/CD GitHub Actions

3.1 How to Run the System (locally)

From your repo run the system using :

```
docker compose up --build
```

3.2 Access URLs

- **Frontend:** http://localhost:3000
- **Backend API:** http://localhost:8000
- **MongoDB:** localhost:27017

4. User Roles & Permissions

Our system has three different role logic (Admin, Organizer, User).

Include:

4.1 Admin

- Approve events
- View all events
- View analytics

4.2 Organizer

- Create/edit/delete events
- Manage registrations
- View participant list
- Get Feedback
- Send Feedback Push Notifications
- Host Paid and Free Events

4.3 Participant

- Browse events
- Register for events
- View details
- Submit feedback
- Get Waitlist
- Get off Waitlist
- Cancel Registration
- Download QR Ticket
- Share Event on Social Media
- Send Ticket via Email

- Pay for paid Events using credit/debit card

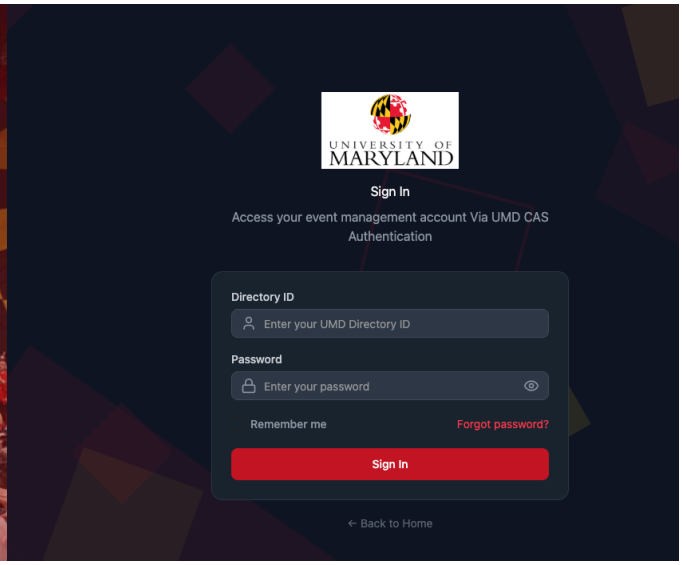

5. Logging In to the system (via Website)

API: /login API

Login Process

- Use UMD Provided directoryID and Password
- JWT stored in localStorage (frontend code handles this)
- Login from → https://logicinloop.com/login

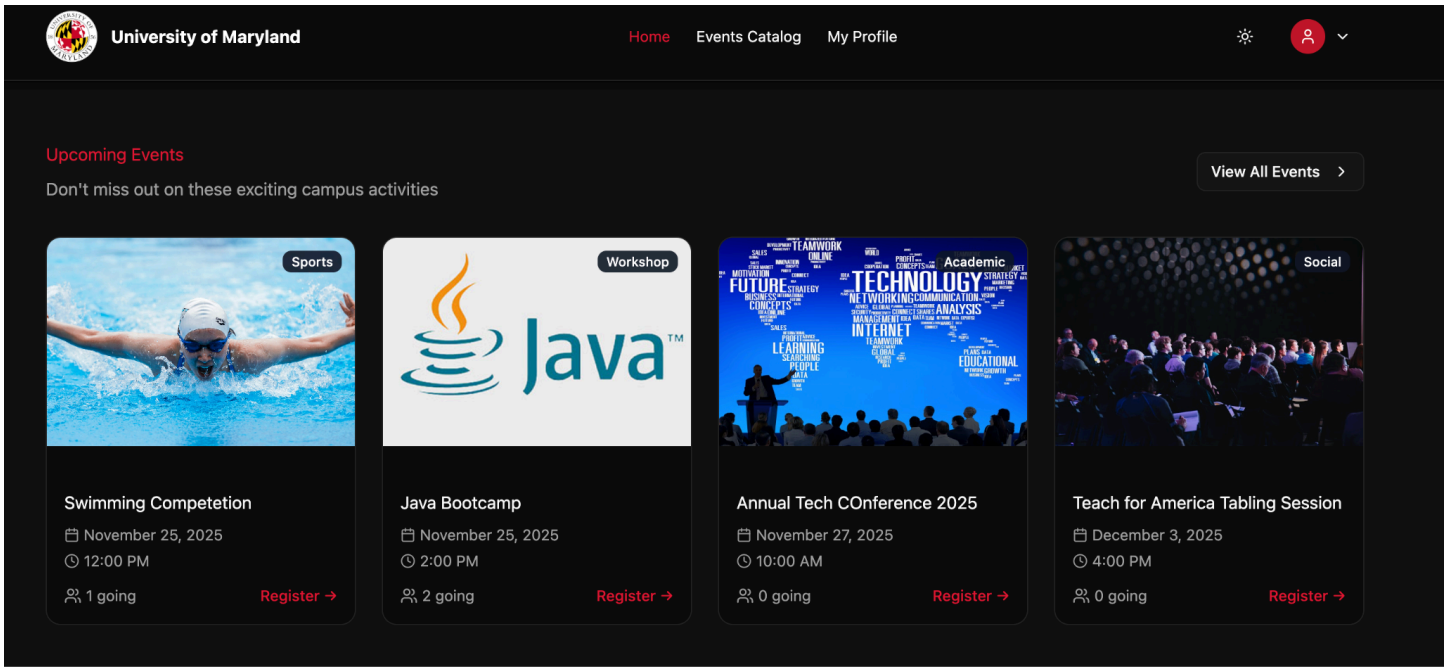

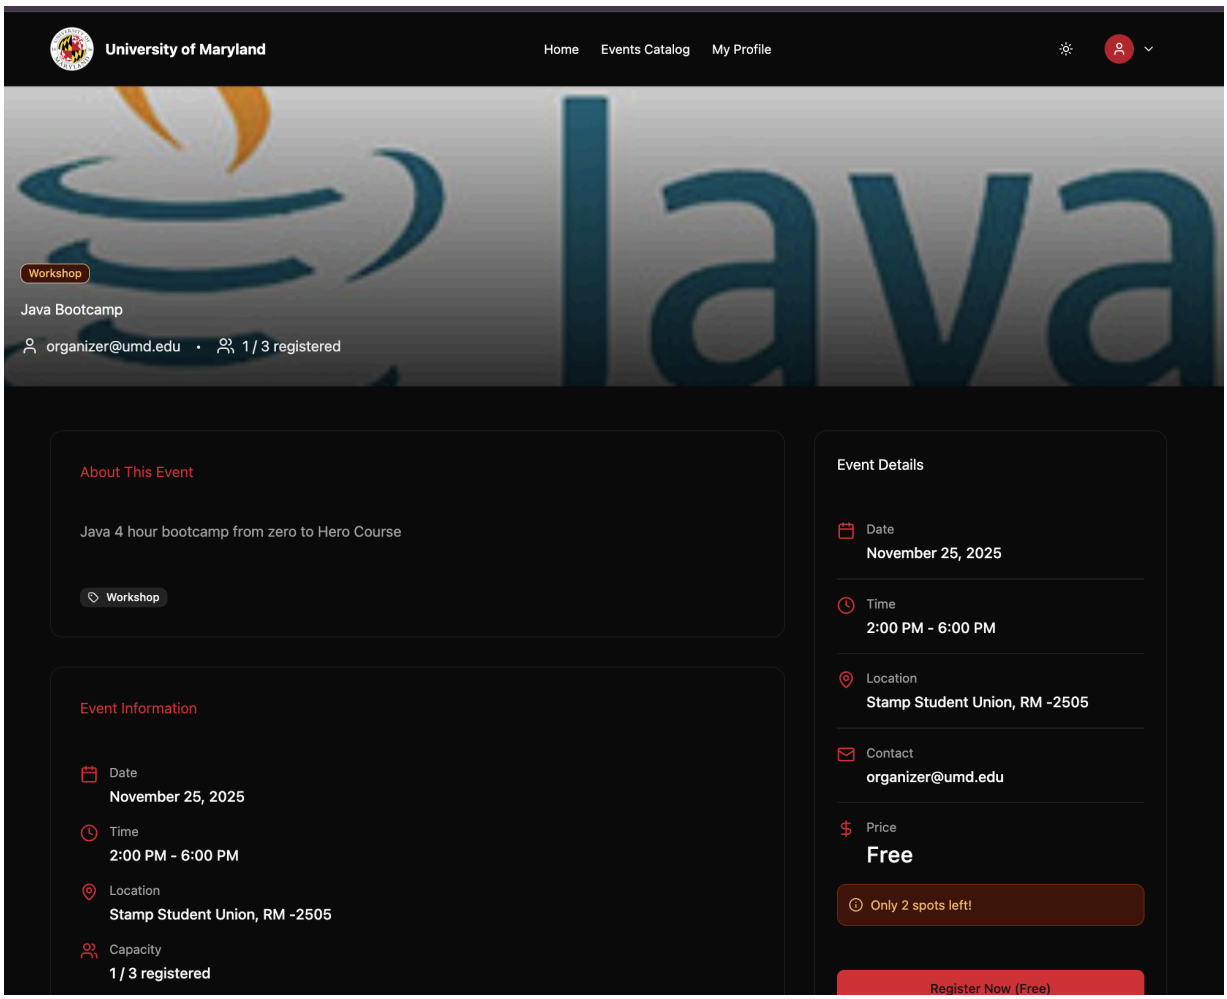

6. Using the System (Step-by-Step Guides)

6.1 Browsing Events (Participants)

- Navigate to Events catalog Page
- View Upcoming Event cards and your Registration Events

- Click on an event to view details

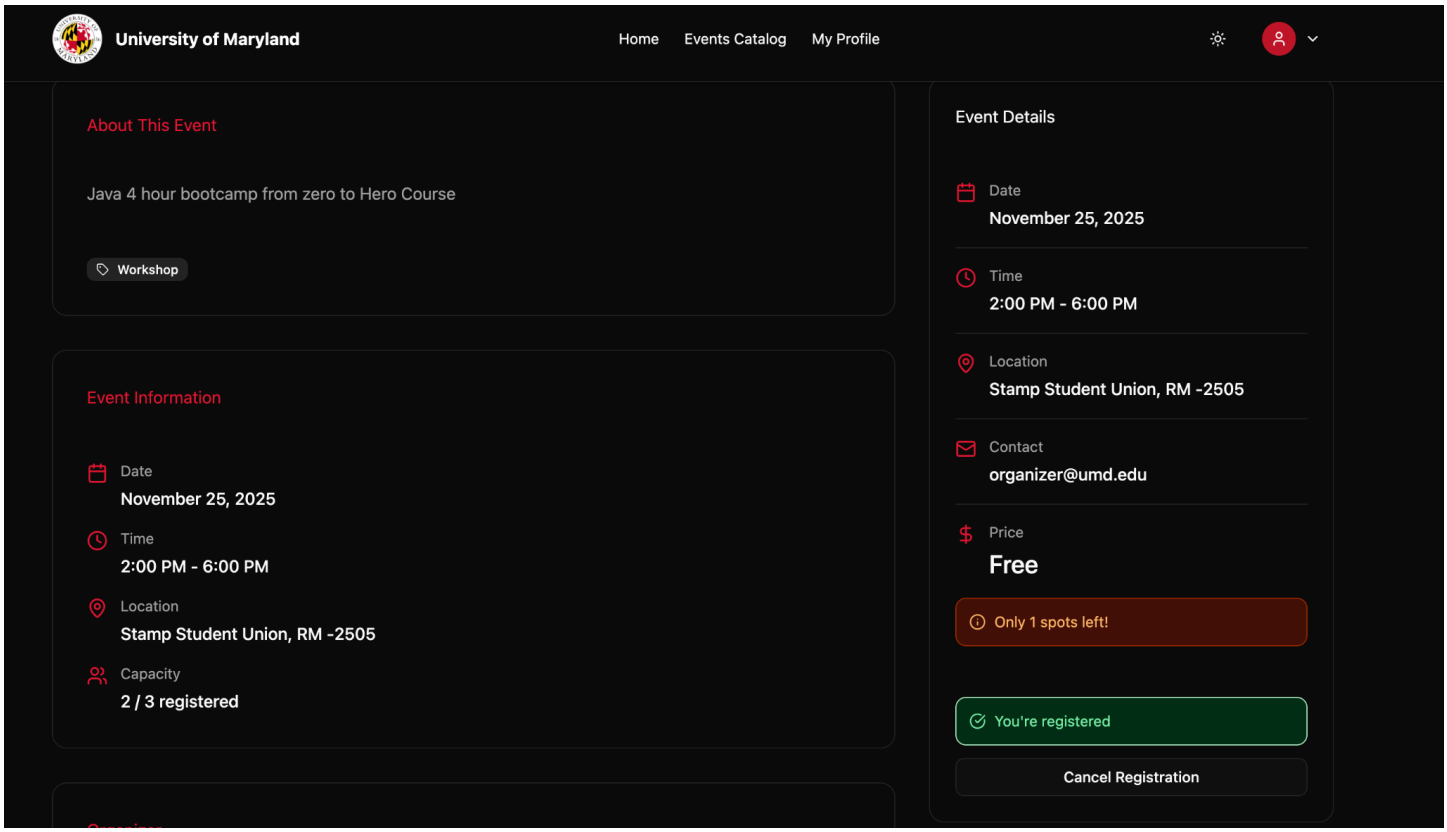

6.2 Registering for an Event

API: /api/events/{id}/register route.

Steps:

- Login as a Participant
- Select an event from events catalog
- Click **Register**
- Registration Confirmation

- Participant gets Confirmation Email

[Terrapin Events] Registration for Java Bootcamp Inbox ×

terrapinevents@logicinloop.com
to me

19:18 (1 hour ago)

Hello!

Your registration is **CONFIRMED** 🎉

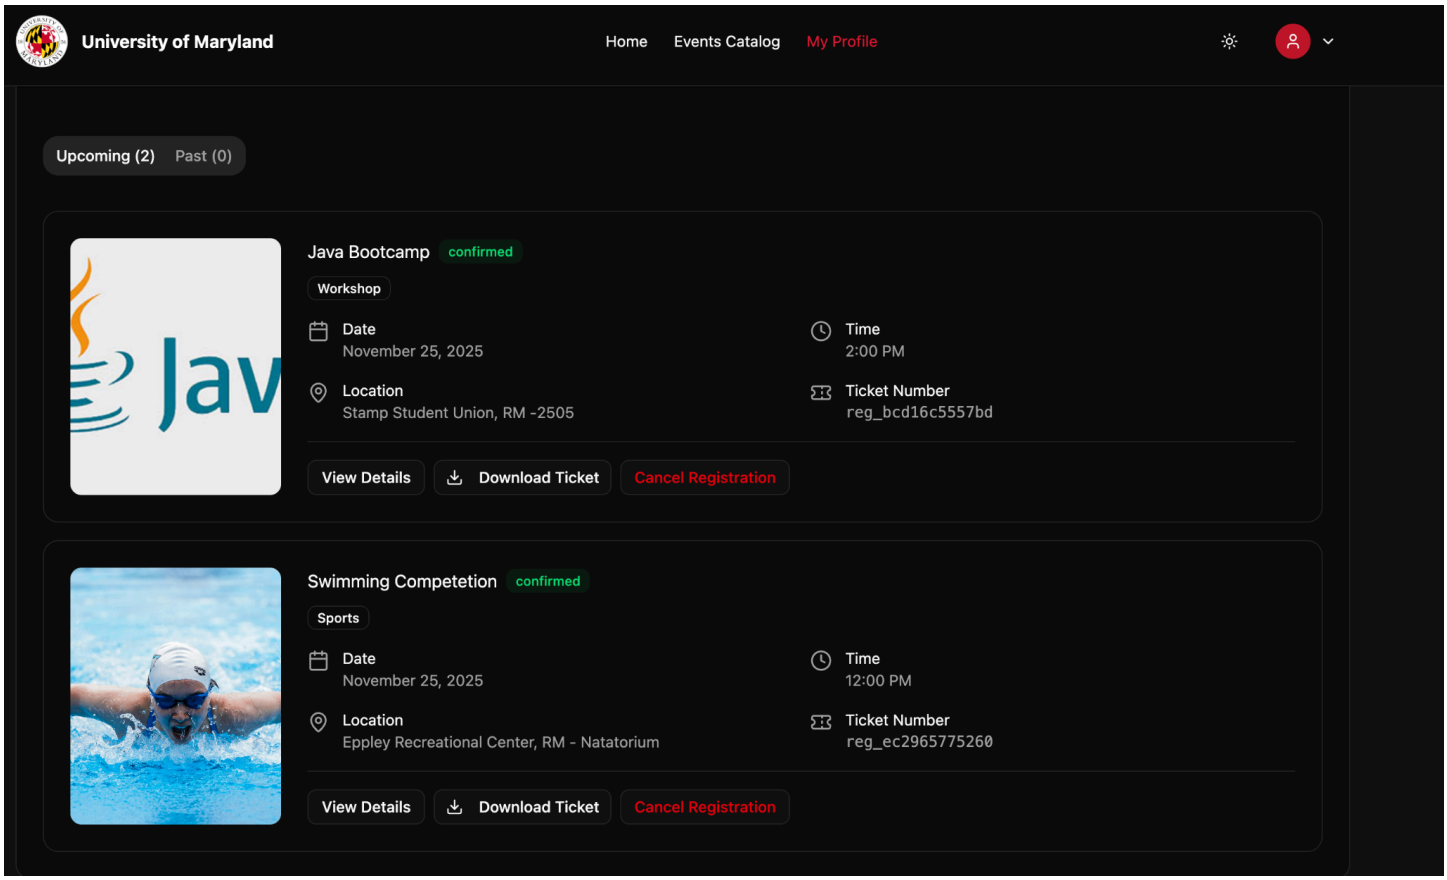

You registered for:

Java Bootcamp

Date & Time: Tuesday, November 25 2025, 02:00 PM
Location: Stamp Student Union, RM -2505

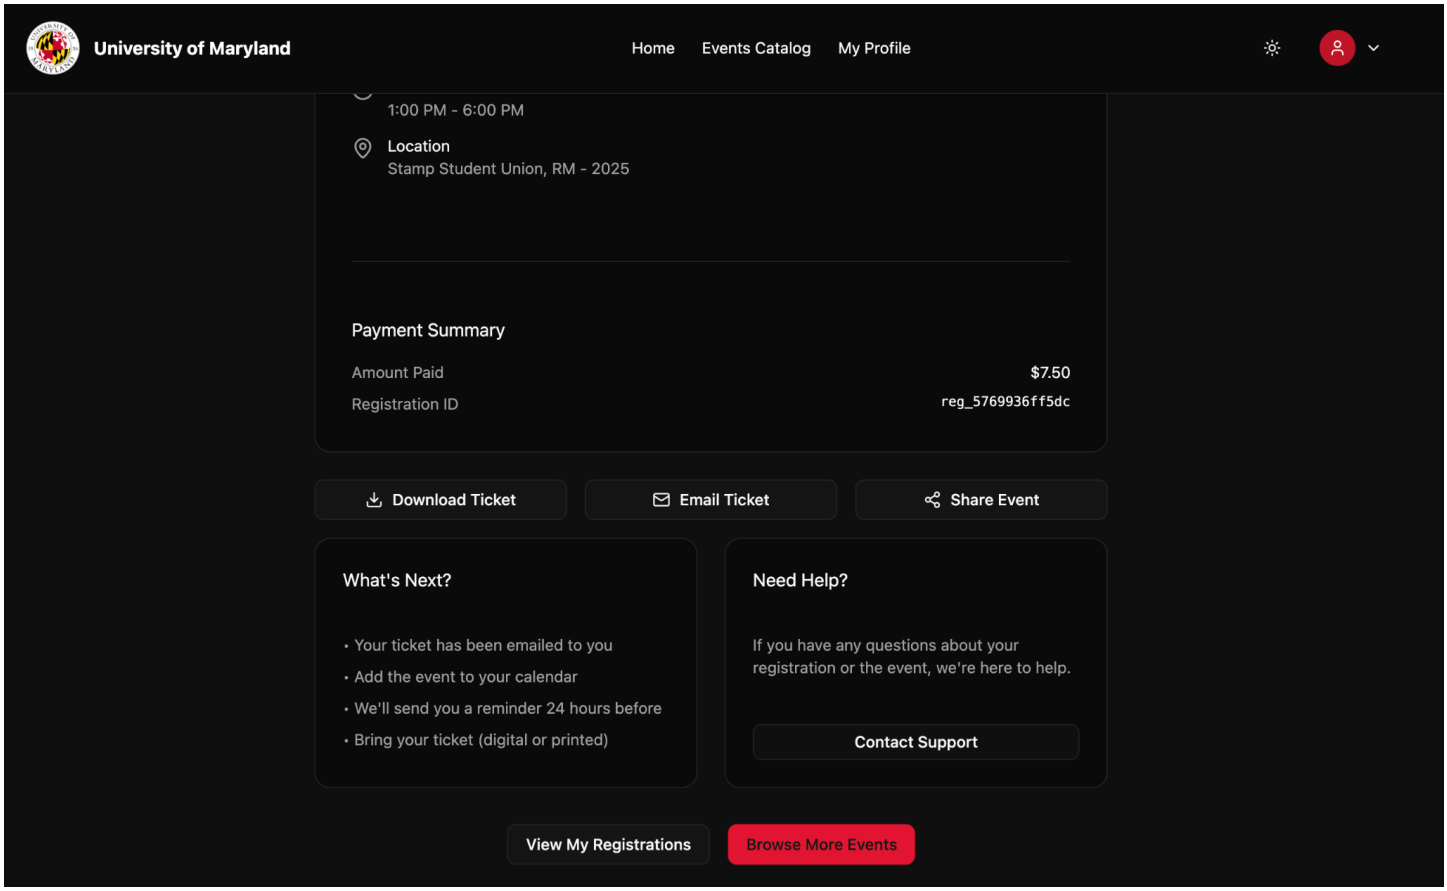

Best regards,
Terrapin Events

- Registration appears in “My Events”

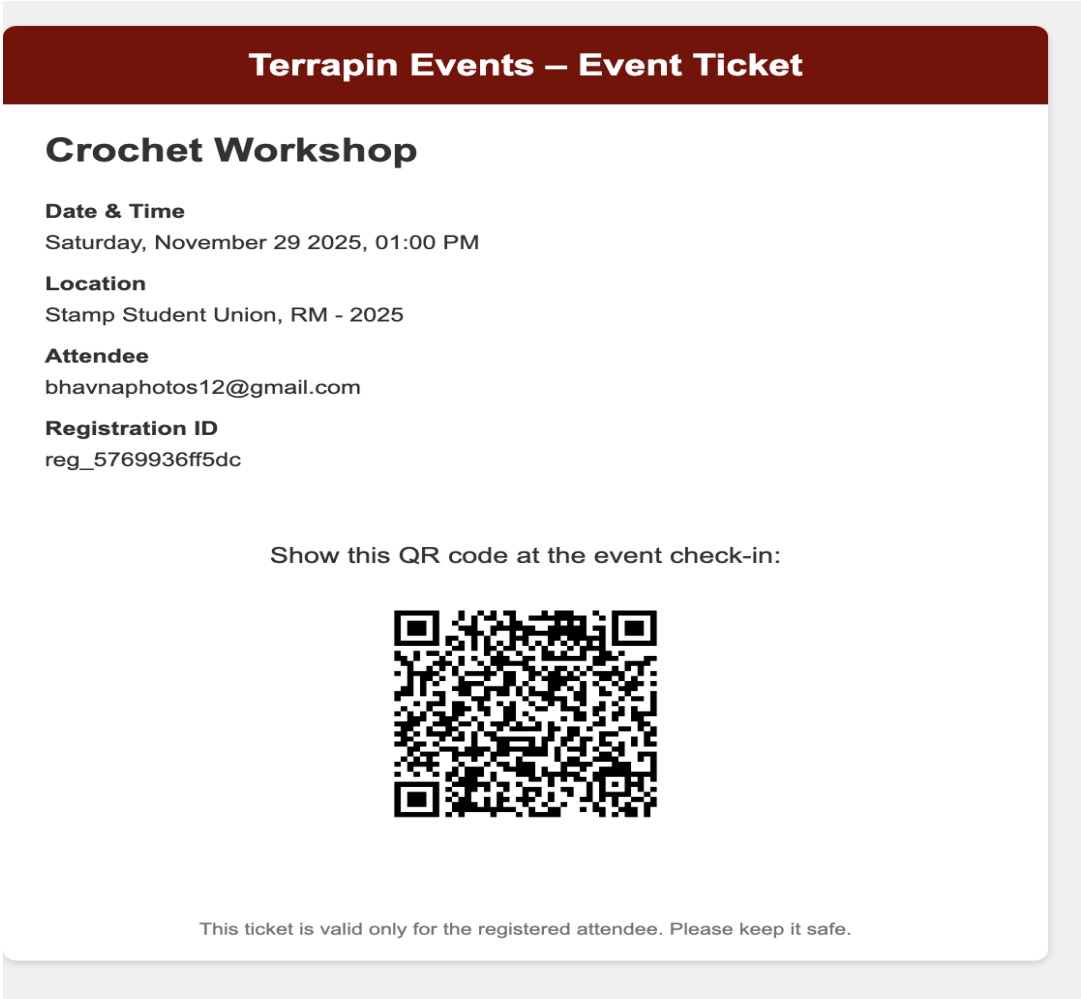

6.3 Downloading Ticket for a Paid Event

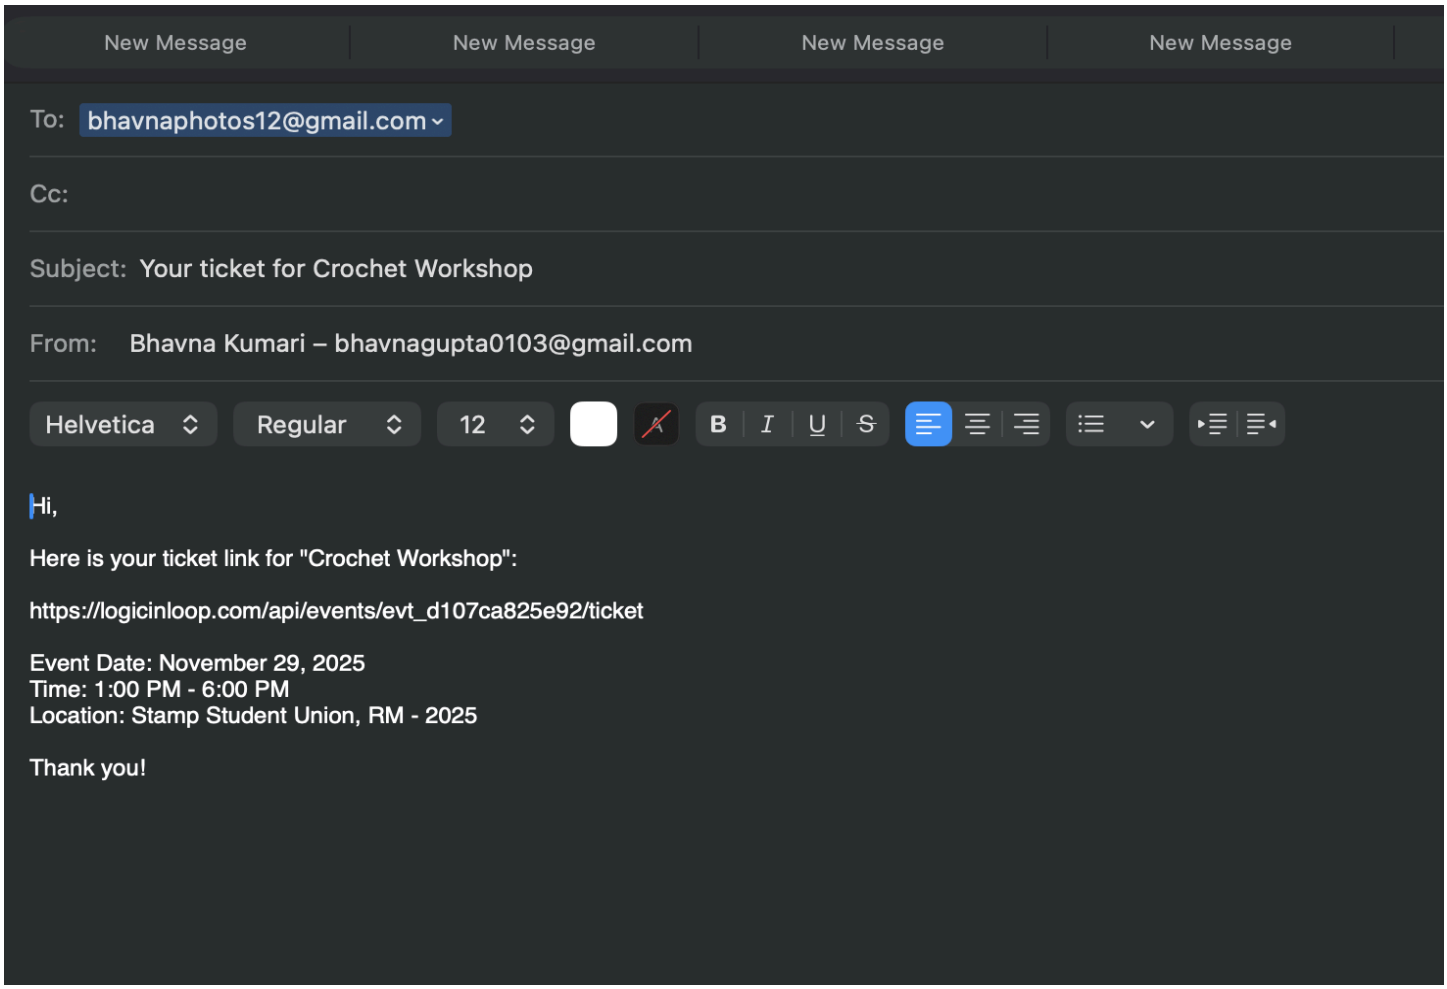

- Login as an Participant
- Register for a Paid Event
- After Payment is Successful
- User would get an Registration Confirmation email

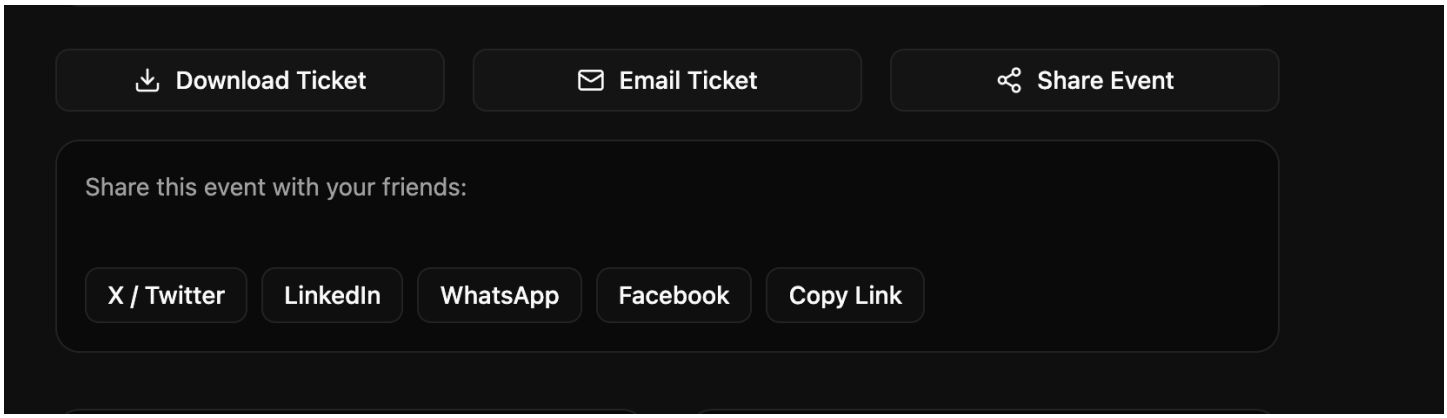

- Users can Download Ticket

- Users can Email Ticket

- Users can Share Event on social media.

6.4 Editing or Deleting an Event

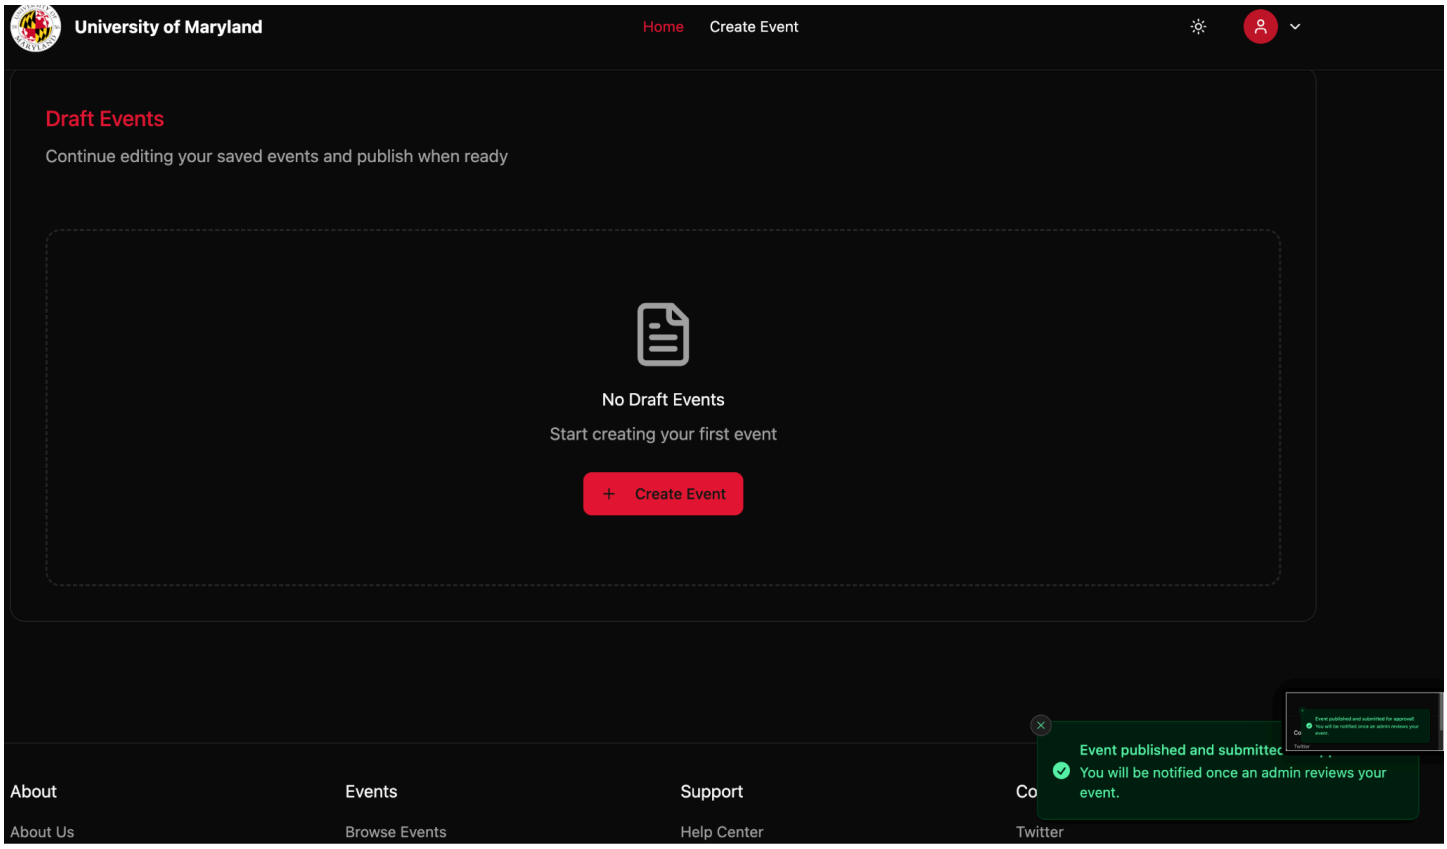

API: /api/events/{id} supports PUT and DELETE.

Instructions:

- Login as an Organiser
- Goto Drafts Event on the Home Page

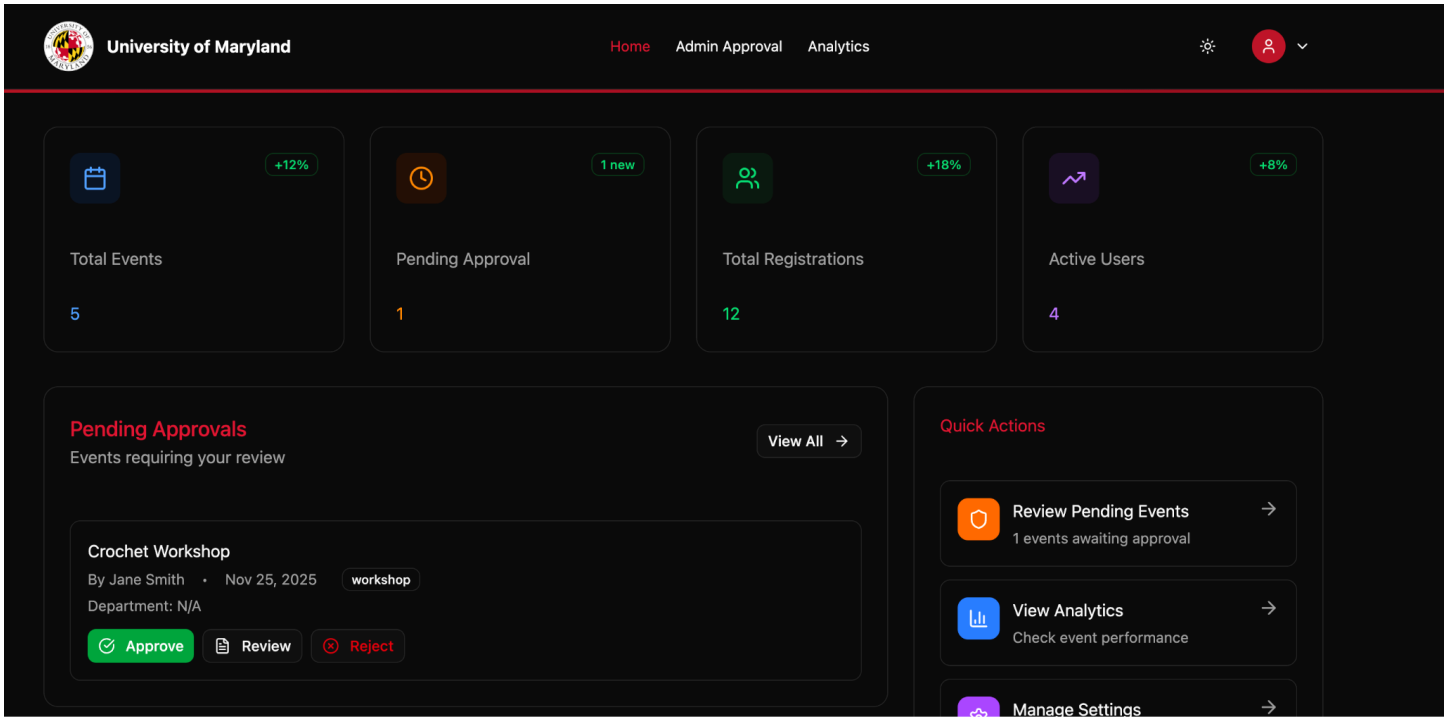

- Open “My Events”
- Click “Edit”
- Update fields
- Publish
- Or click “Delete”

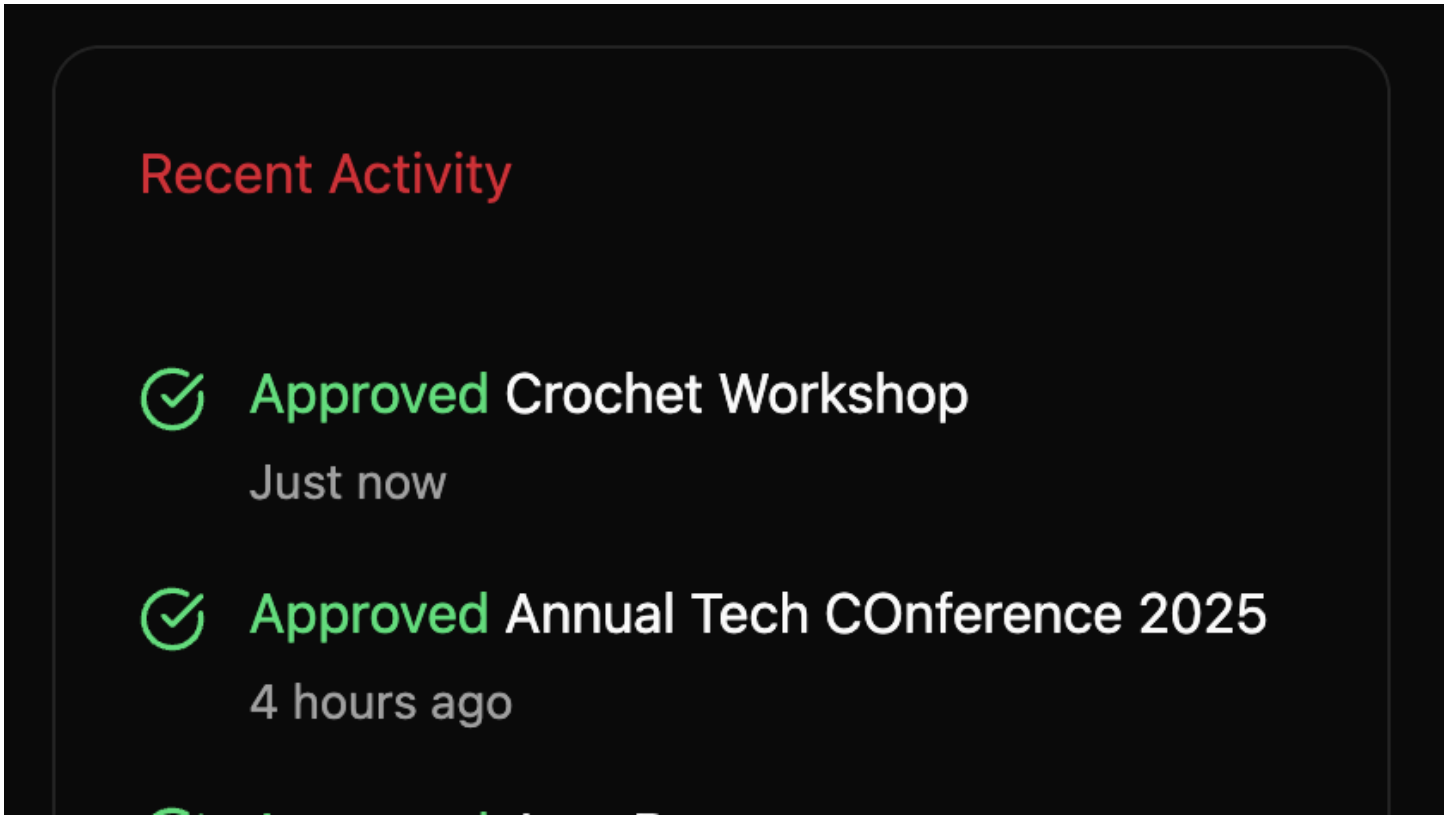

6.5 Admin Approval

- Admin has to approve event after the organiser publishes them
- After Admin Approval only, Participants can register for the event
- Click on Admin Approval Option

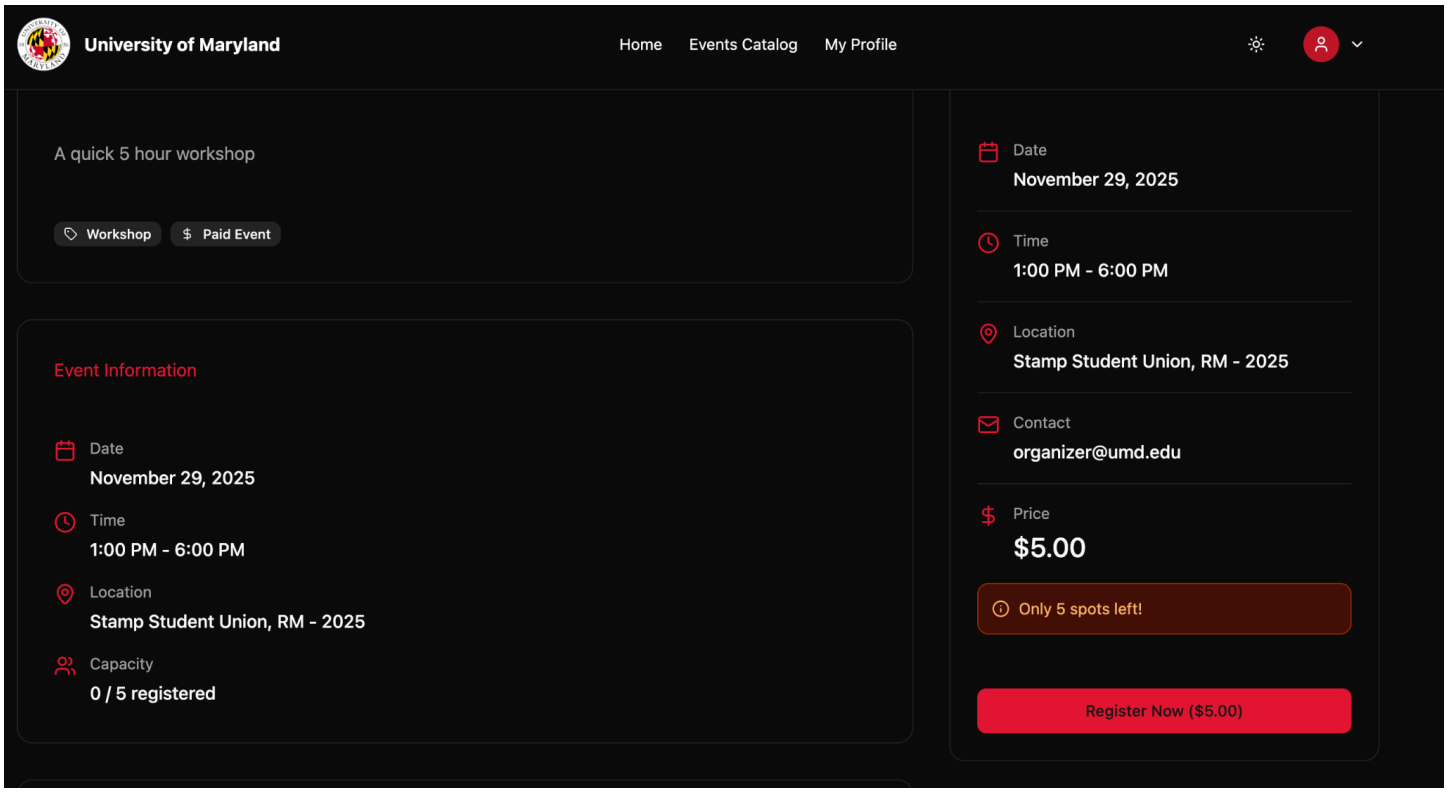

- Click on Approve

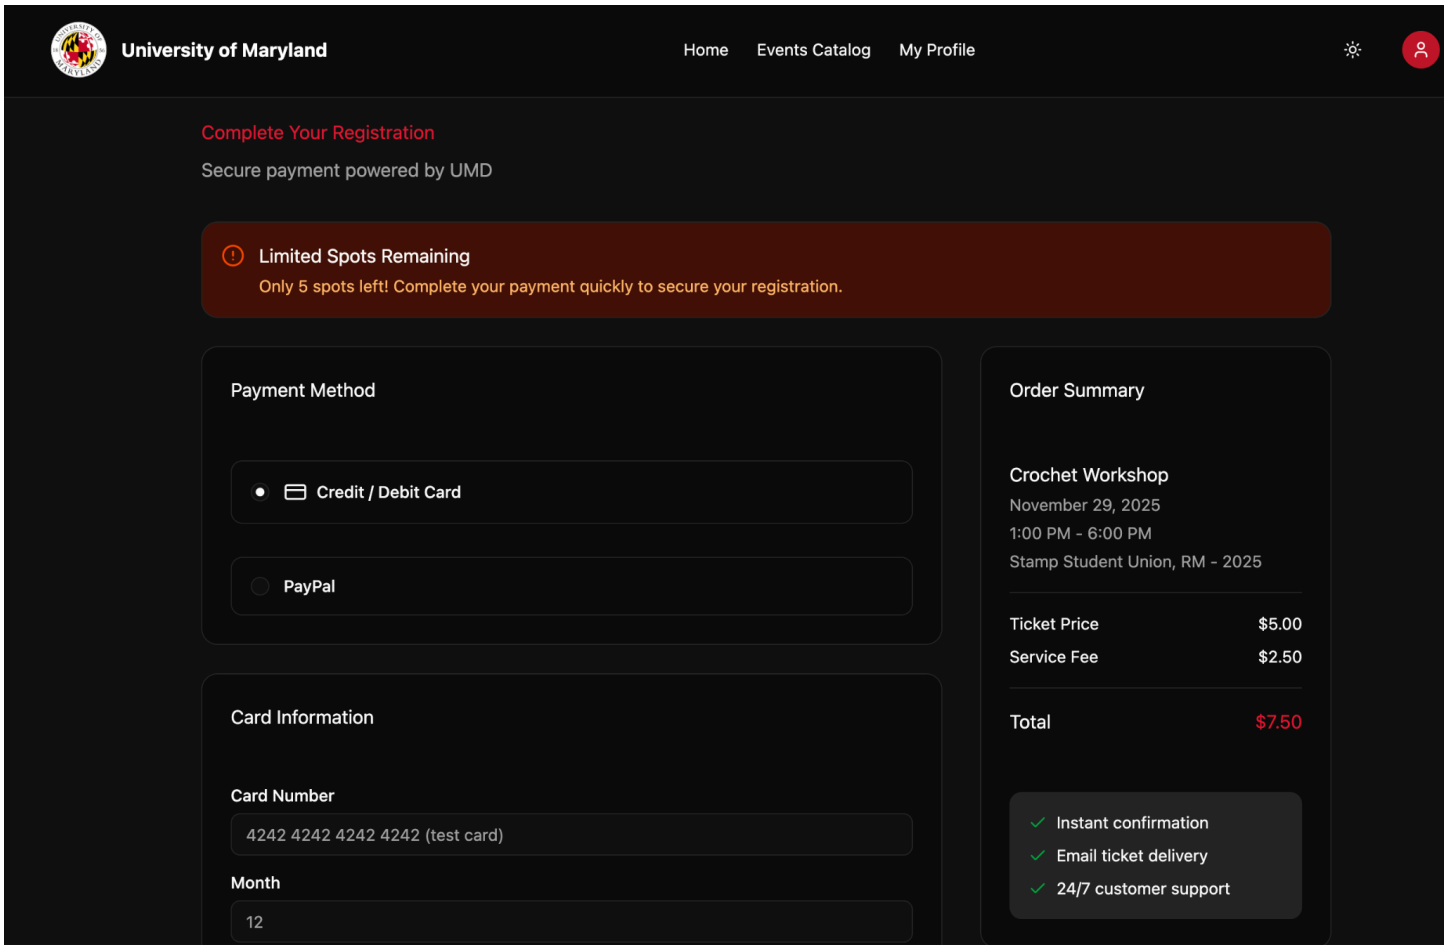

6.6 Participant Registration for a Paid Event

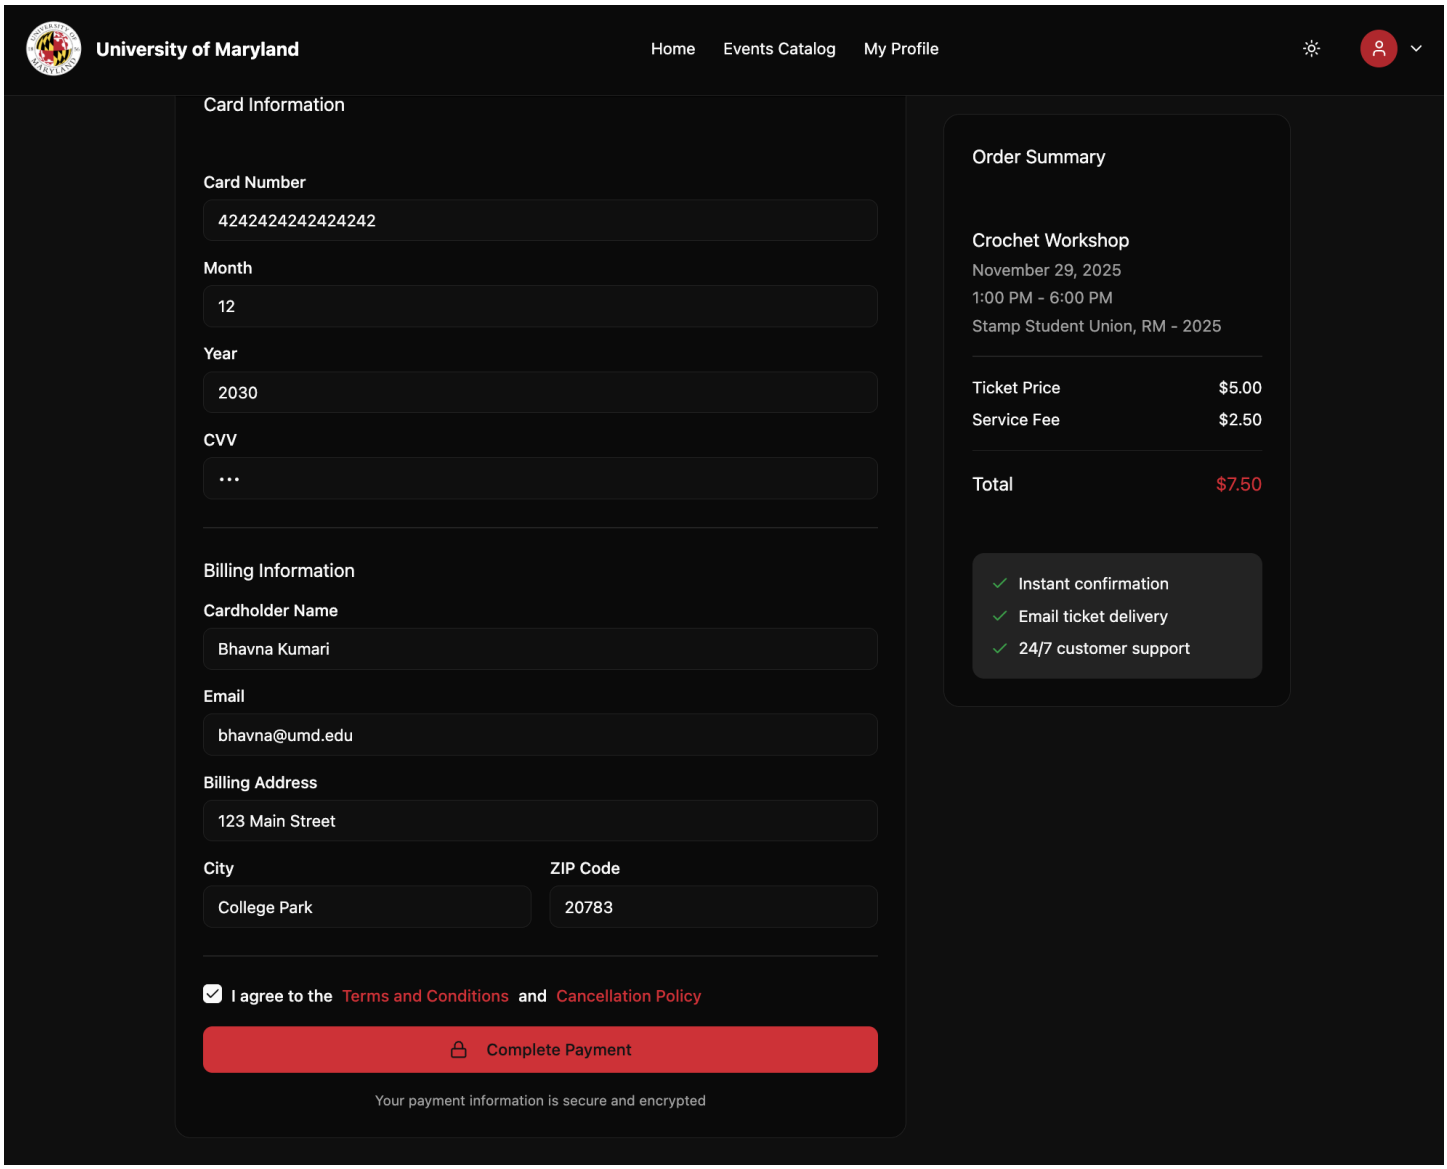

- Login as a Participant
- Click on and Event that is shown Paid

- Add your card Information

- Add all the required details

- After Registration is confirmed user would get an email
- Users can also Download Ticket, Email Ticket and Share Event on social media.

6.6 Gathering Feedback After Event (StakeHolder & Admin Only)

StakeHolders can request for Feedback After the Event has been concluded via push notifications.

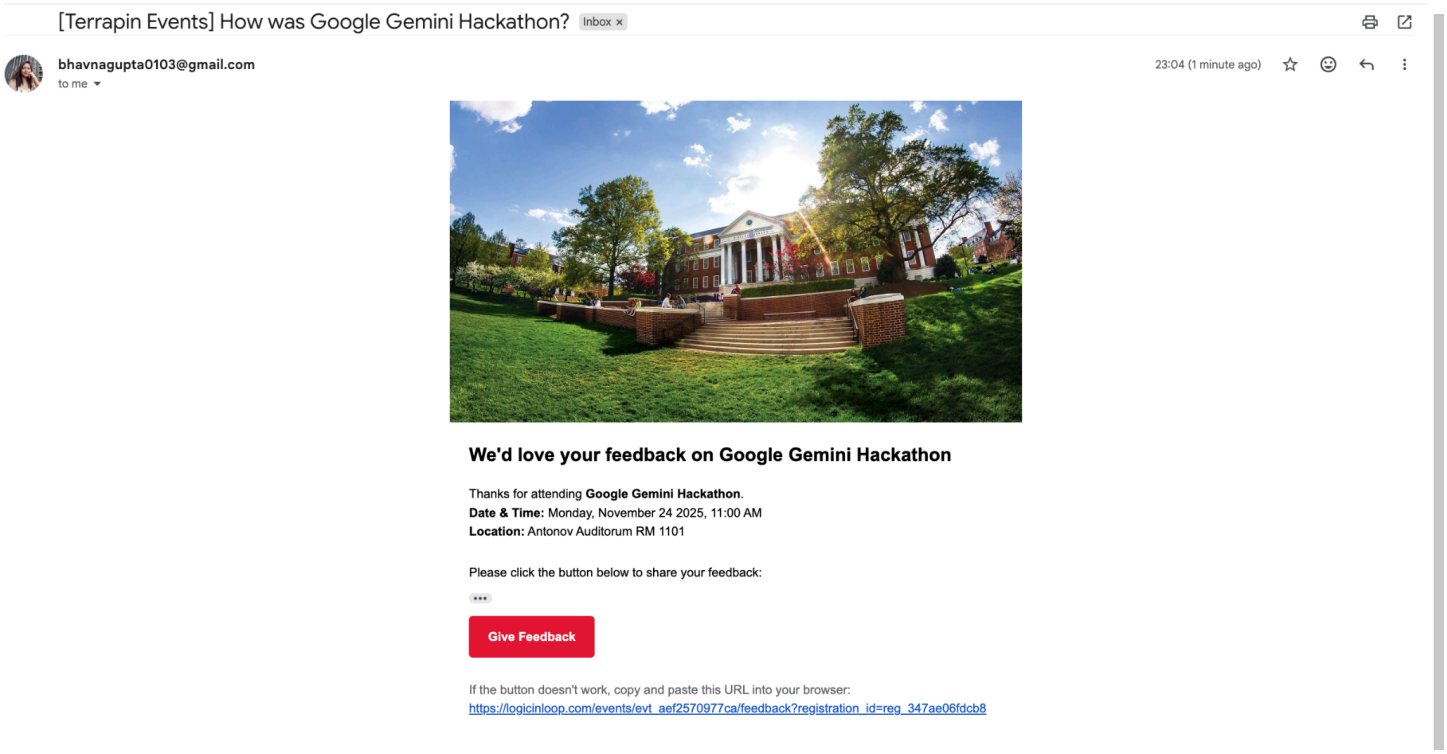

API : POST api/events/{event_id}/feedback/reminders

- Hit the push notification via below endpoint

```
curl --location --request POST 'https://logicinloop.com/api/events/evt_ff47b10ee7ad/feedback/reminders' \
--header 'Authorization: Bearer
eyJhbGciOiJIUzI1NiIsInR5cCI6IkpXVCJ9.eyJkaXJlY3RvcnlfaWQiOiJvcmdhbmlzZXIiLCJyb2xlIjoib3JnYW5pemVyIiwiZXhwIjoxNzY0MDMyMzUyLCJpYXQiOjE3NjM5NDU5NTJ9.3F9tBQojX701oepkTPFyL506aHYpHu9V05WiWYuLEvs' \
```

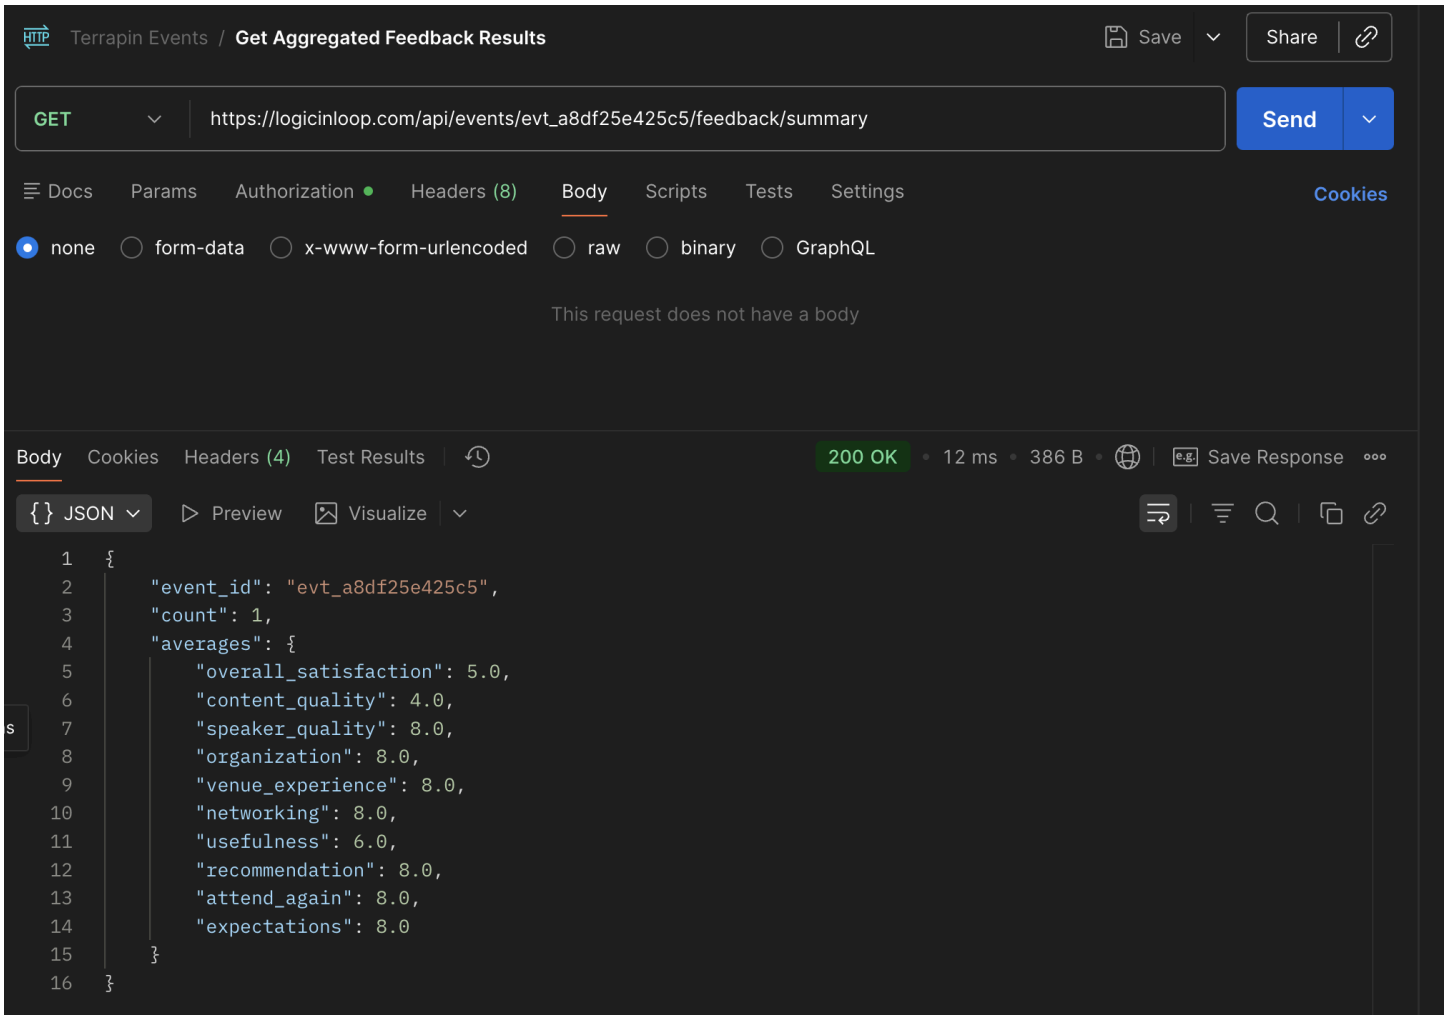

```
--data ''
```

- Registered Participants would be getting the email to submit feedback

- Our System aggregates all the feedback received for a particular event.

```
curl --location 'http://127.0.0.1:8000/api/events/evt_a8df25e425c5/feedback/summary' \
--header 'Authorization: Bearer
eyJhbGciOiJIUzI1NiIsInR5cCI6IkpXVCJ9.eyJkaXJlY3RvcnlfaWQiOiJvcmdhbmlzZXIiLCJyb2xlIjoib3JnYW5pemVy
IiwiZXhwIjoxNzY0MDM3NDMyLCJpYXQiOjE3NjM5NTEwMzJ9.cCpJWopKLAKVqSdk9kR2DwBp5umWvjaYO-
s5pETenZQ'
```

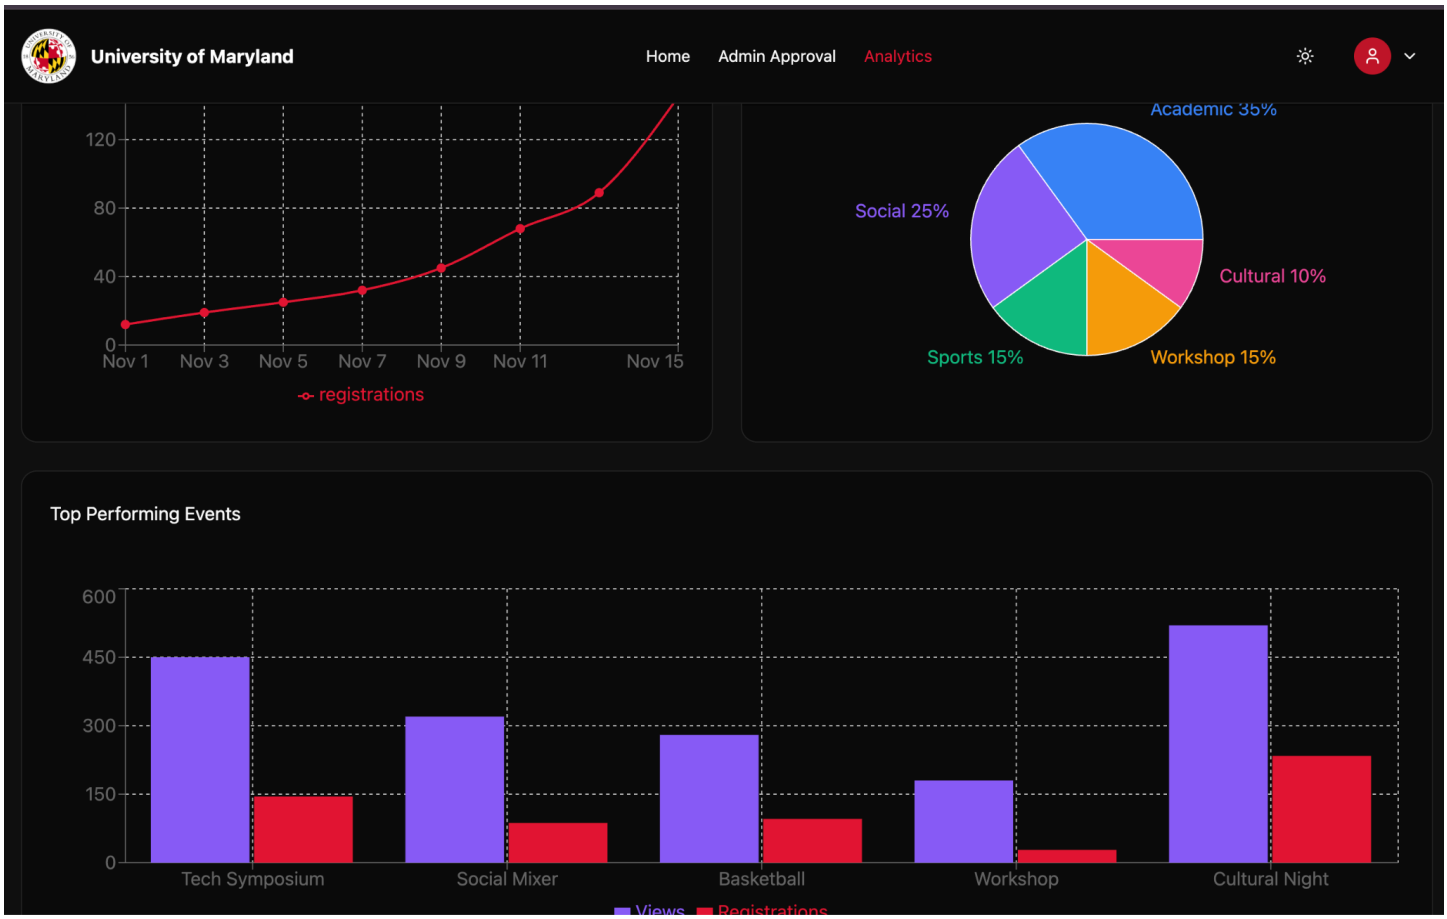

- And Uses it for Analytics

6.7 Viewing Event Analytics

System contains endpoints like:

API: /events/overview

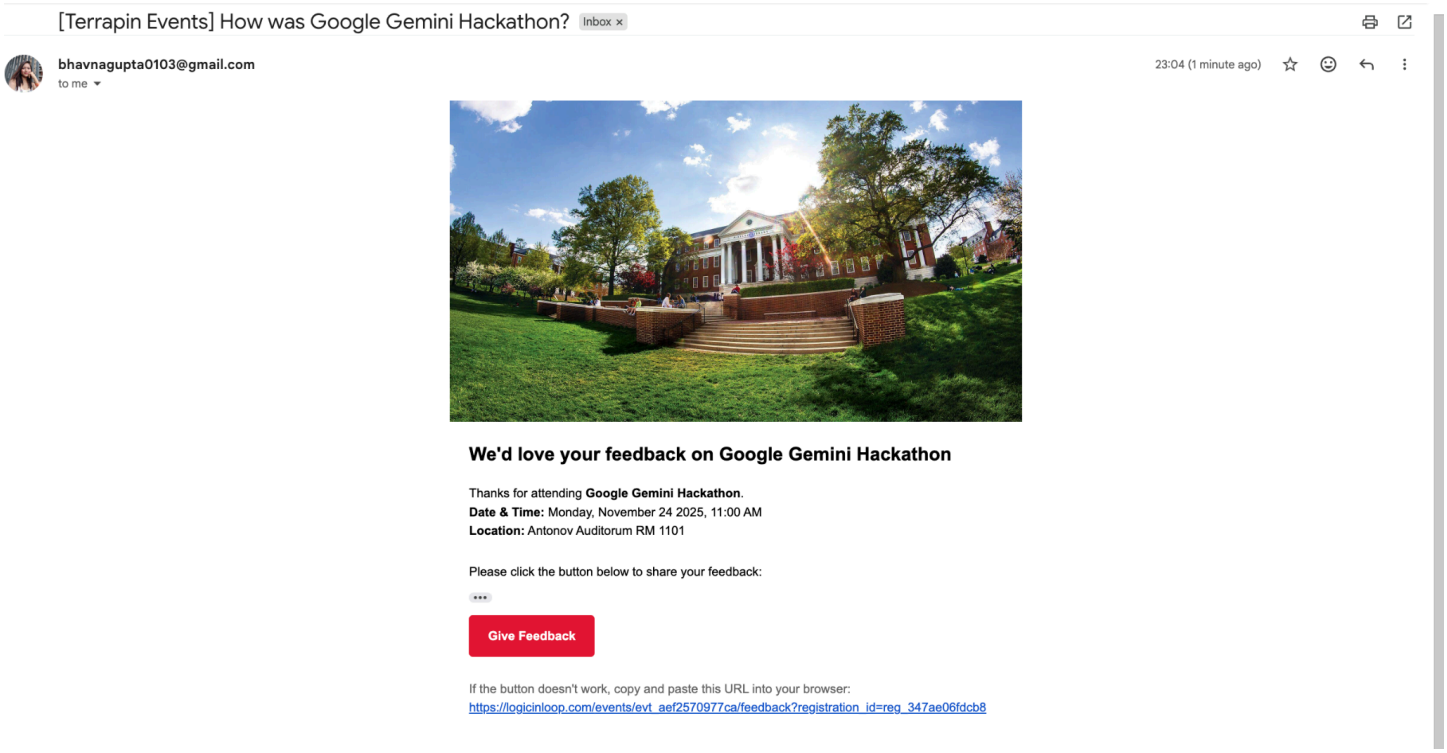

- Login as Organiser/Admin
- Go to
- Describes:
    - Total attendees
    - Registrations
    - Trends

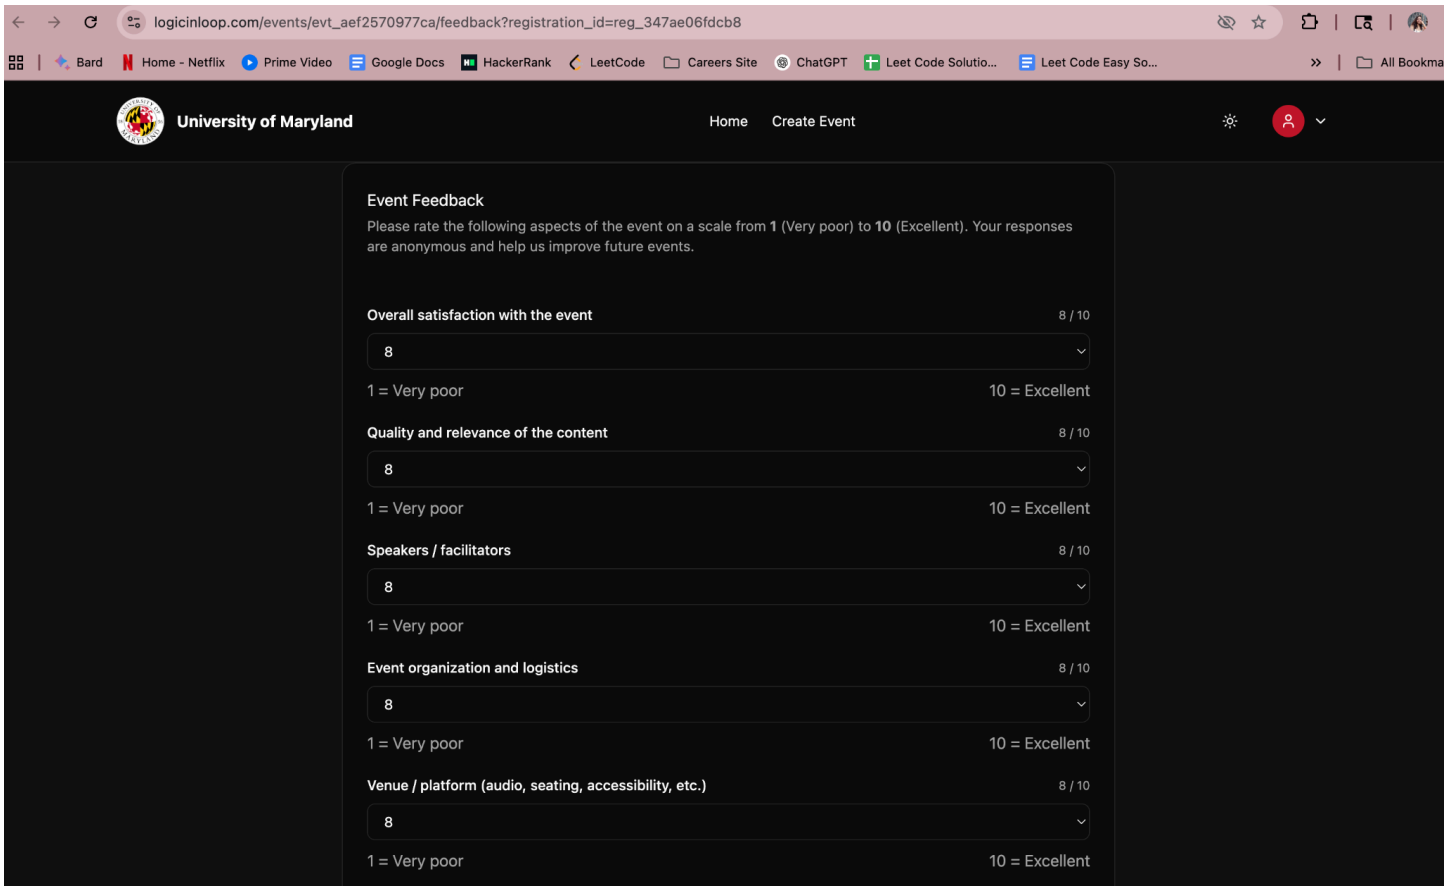

6.8 Submitting Feedback (Participants)

Feedback can be submitted by Participants who have registered for events , once organisers requests for it.

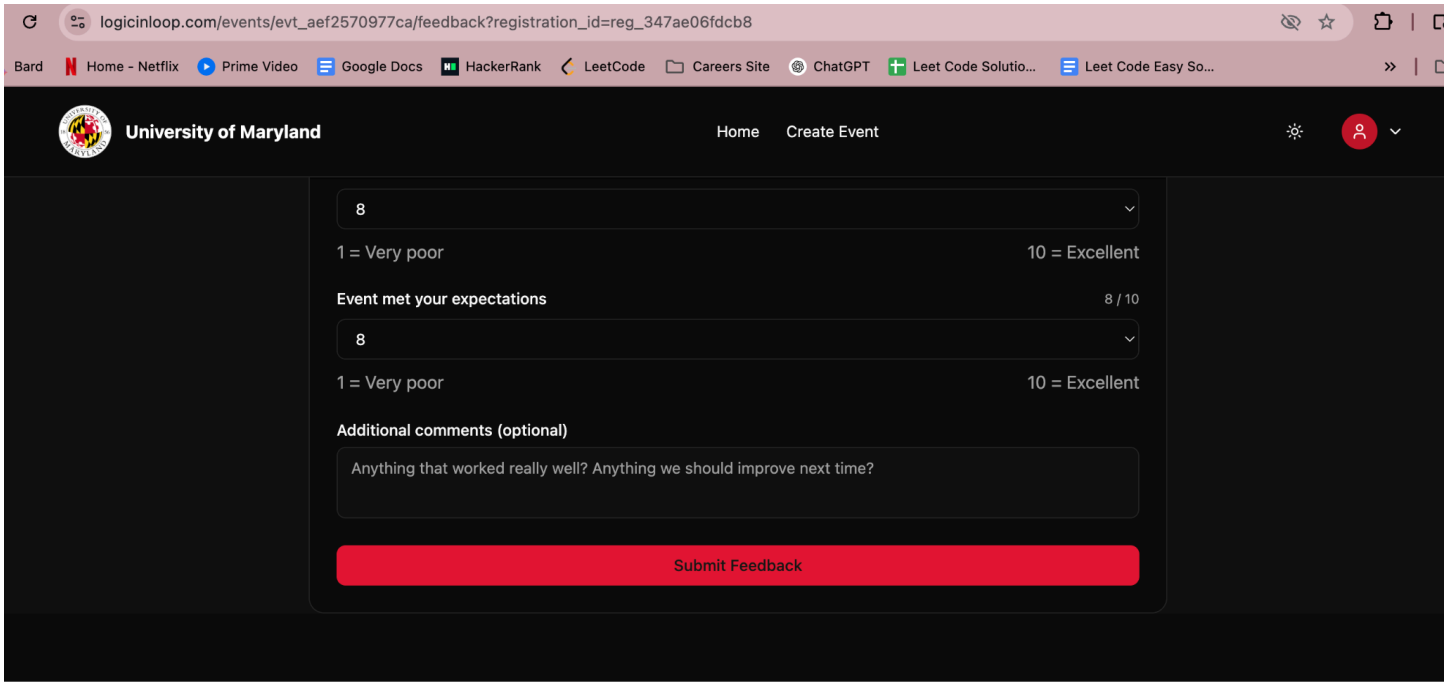

- Registered Participants would be getting the email to submit feedback

- Click “Give Feedback”
- Enter rating/comments

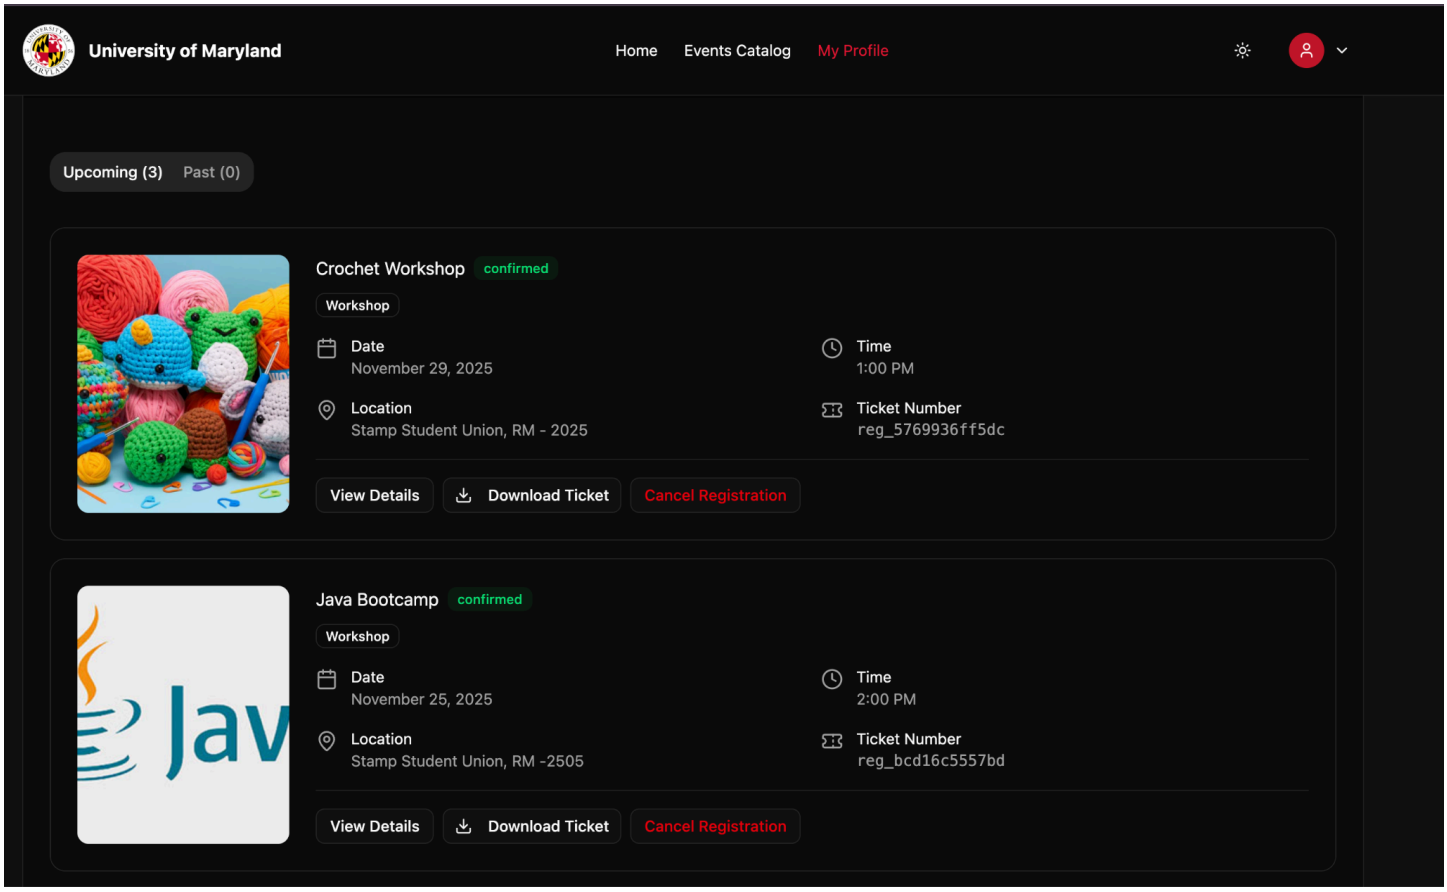

- Submit

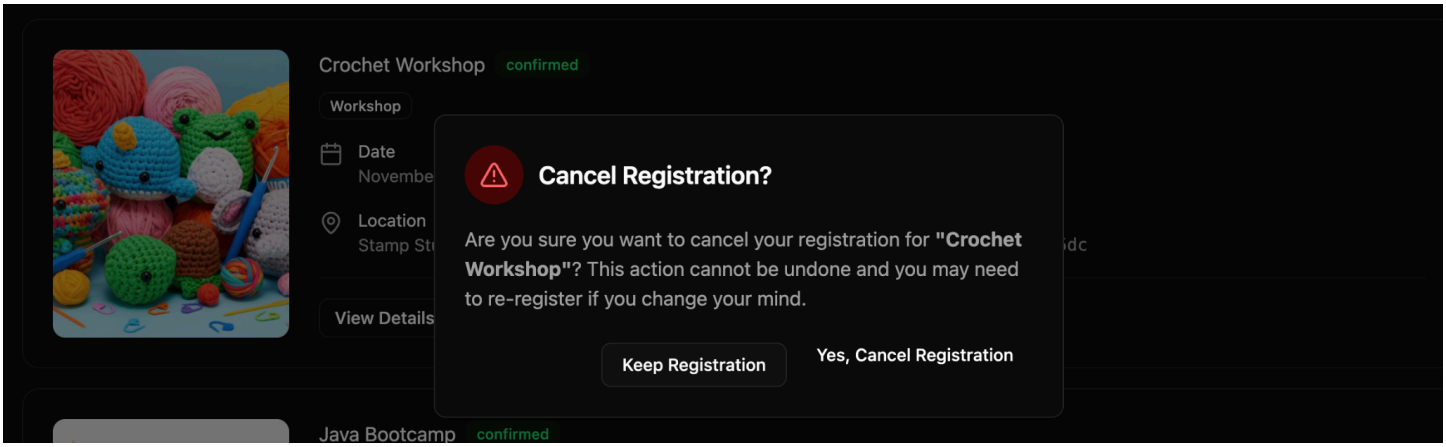

6.9 Cancelling Registration (Participants)

- Users can cancel their registration
- Login as a Participant
- Go to My Profile

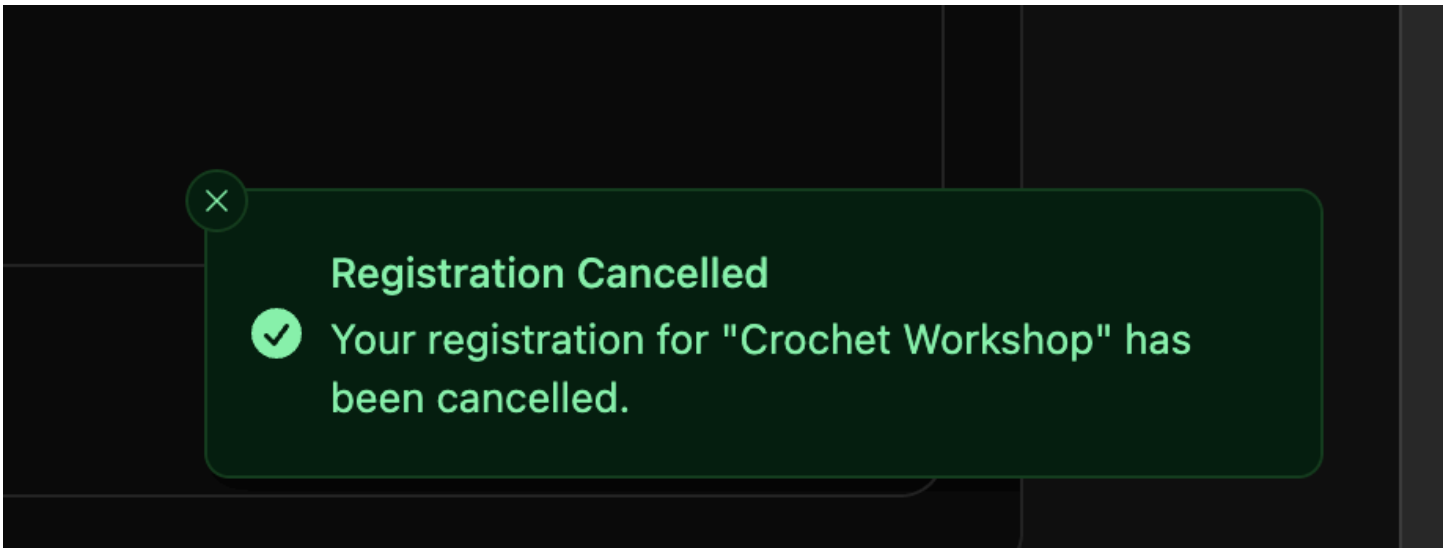

- Click on Cancel Registration

- They would get a confirm action Pop Up

- If you change your mind click Keep Registration
- Again Click Yes, Cancel Registration

- They will get an email saying Cancellation Successful

to me

22:09 (1 minute ago)

Your registration has been cancelled

You have successfully cancelled your registration for:

Crochet Workshop

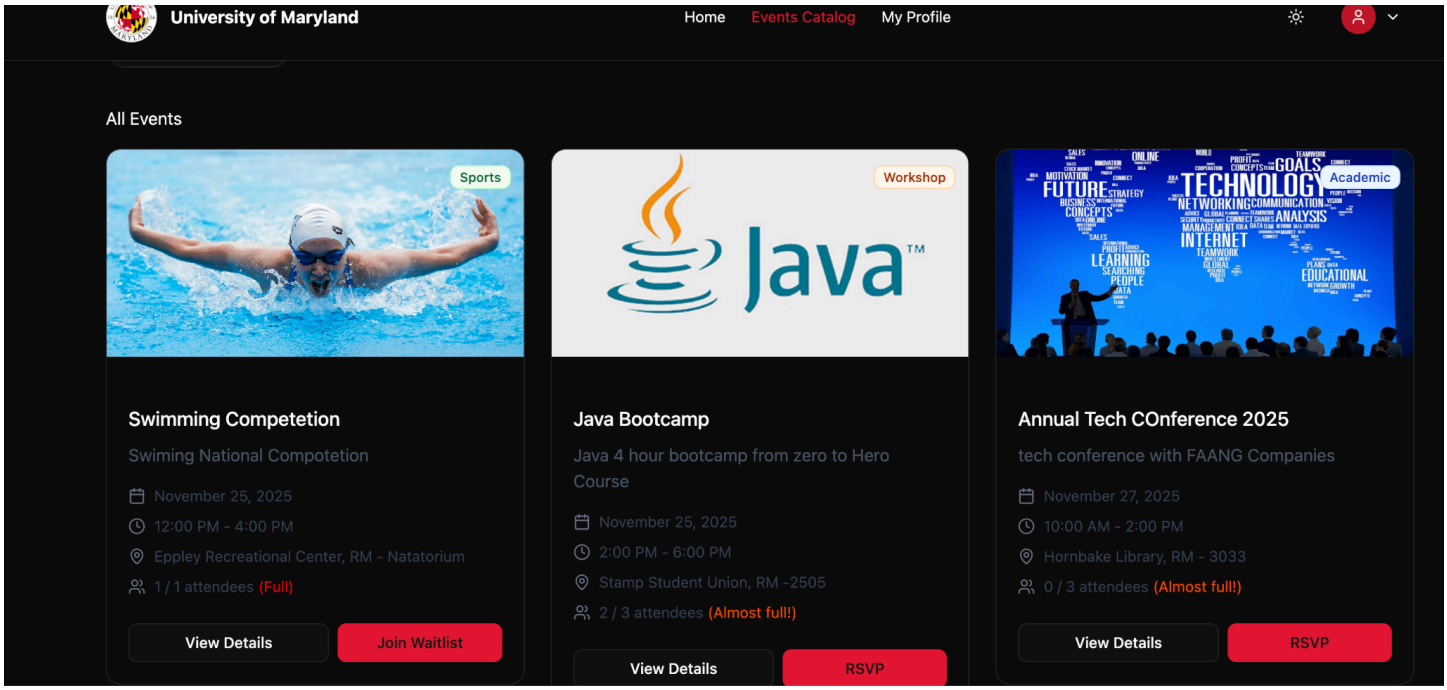

Date & Time: Saturday, November 29 2025, 01:00 PM
Location: Stamp Student Union, RM - 2025

If you did not initiate this cancellation, please contact the organizers immediately.

Best regards,
Terrapin Events

6.8 Join a Waitlist (Participants)

- Login as a participant
- Goto Events Catalog Page
- Click on a Event whose registration if full
- Click on Join Waitlist

- User will receive an email saying they are waitlisted

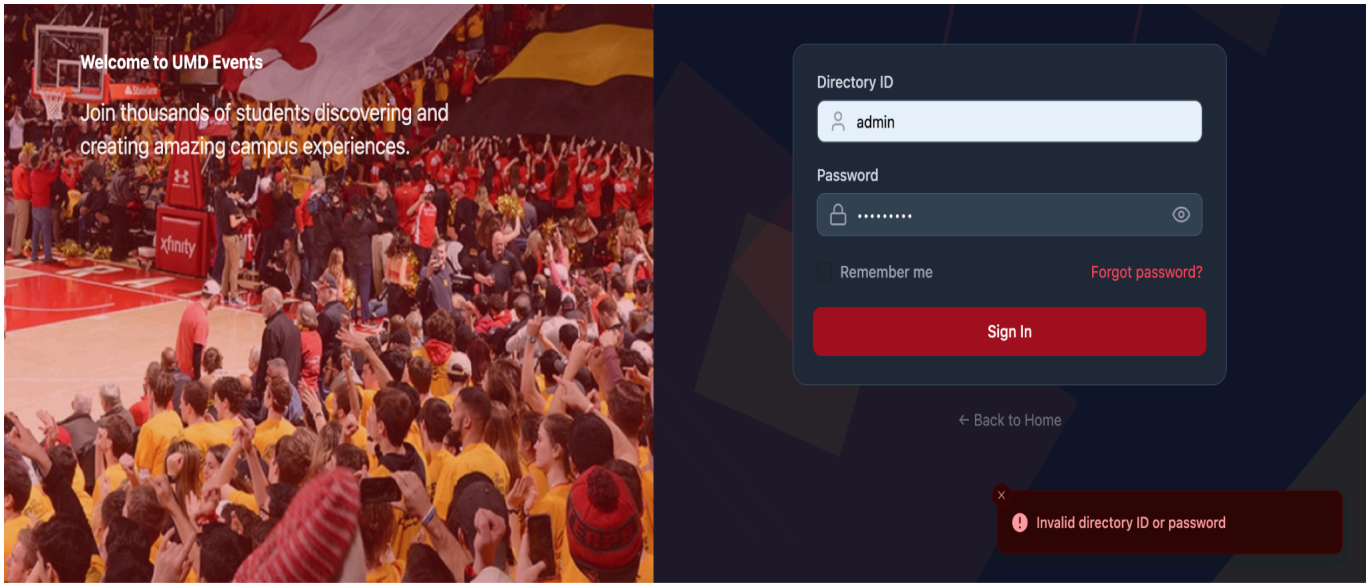

- Once someone cancels they will be automatically moved forward and would get registration successful email.

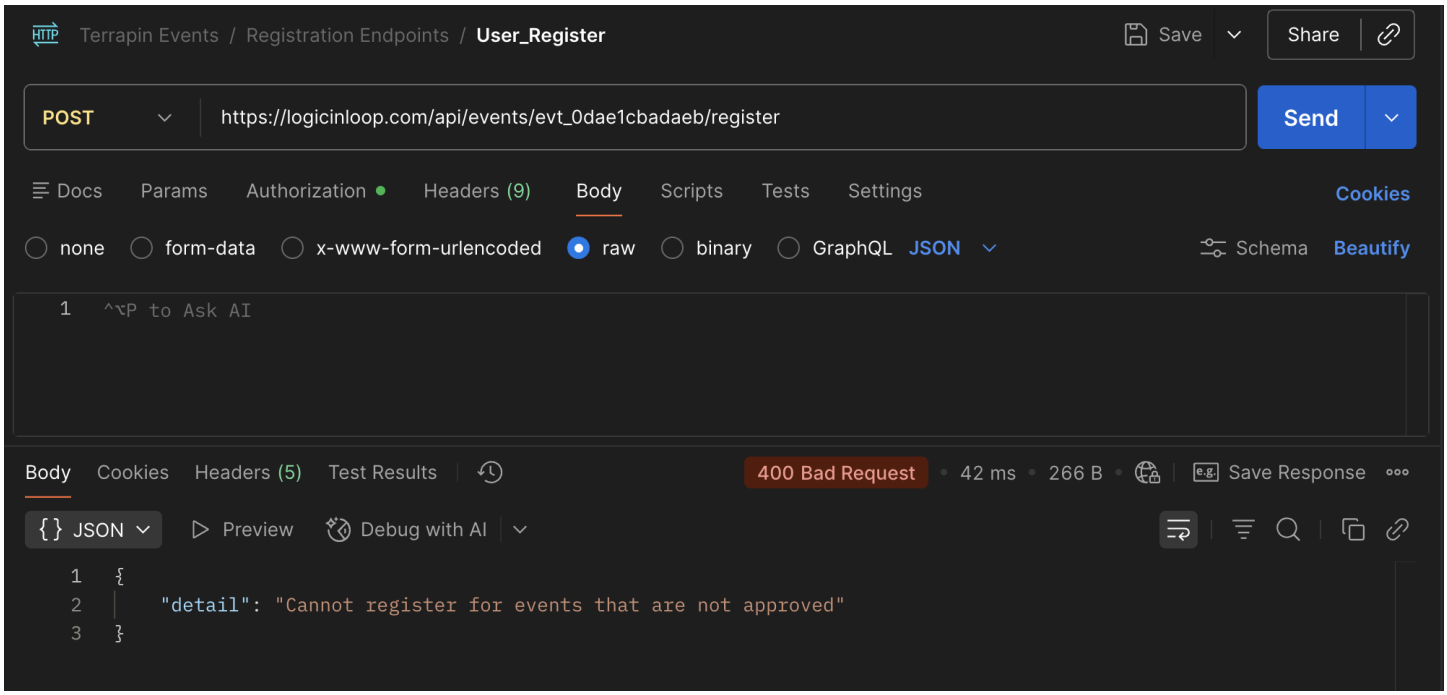

7. Troubleshooting

Common issues: invalid login, full events, network errors.

- Invalid login → “Wrong credentials”

- Event is not Approved By Admin → “Participants cannot register”. Showing via backend as we do not show unapproved events on Participants Event Catalog

- Network error

8. FAQs

- How do I reset my password?

  Answer : Since Terrapin Events uses CAS, if you forget your directoryID's password you have to reset from the UMD HelpDesk

- Can I change my role?

  Answer: All UMD affiliated people can register for an event be it participant, organizer and admin. But the admin roles are provided by the UMD so they cannot be changed.

- Why can't I edit an event after it starts?

  Answer: As the admin has already approved an event it cannot be changed by Organiser but admin can edit, update and delete the event.

9. Contact & Support

- **Team 4 - Terrapin Events**
- **Emails:**
  - Abhighna Kandala - abhignak@umd.edu
  - Bhavna Kumari - bhavna@umd.edu
